

Student Learning Outcomes (SLOs) are measurable statements that express what a student will know, do, or think at the end of the learning experience. They are consistent with standards of professional practice, the American Association of Colleges of Nursing (AACN) 2011 Master's Essentials of Master's Education in Nursing and MSN RODP Program Learning Outcomes PLOs. The SLOs are developed and approved by faculty who are experts in their field and are reviewed annually to assess program effectiveness and guide programmatic improvements.
